SEKISUI SPR

Leading-Edge Trenchless Solutions

Our Mission:

To provide a wide range of innovative products and environmentally friendly solutions with a focus on excellence and sustainability for society.

Our Vision:

To become a global leader in protecting and improving critical infrastructure that sustains society.

Core Values:

Innovation: challenging the status quo, encouraging curiosity, and fostering creativity to develop new ideas, products, or processes that add value

Excellence: consistently striving for the highest standards, refusing to settle for "good enough," and exceeding expectations through continuous improvement

Integrity: adhering strictly to moral, ethical, and honest principles, even when no one is watching.

Pride: representing a deep sense of self-respect, accomplishment, and ownership regarding one's work, identity, and community.

Excitement: driving a stimulating and energetic life or work environment, characterized by high enthusiasm, eagerness, and a proactive pursuit of dynamic change and adventure.

Growth: focusing on continuous improvement, learning, and expanding capabilities.
